BE AWARE E-PLATFORM AND MOBILE APP LAUNCHED FOR TESTING

Empowering Youth to Navigate the Online World Safely

April 2025 – The BE AWARE project is proud to announce the launch of its **interactive e-platform and mobile app**, now available for public testing. These digital tools have been developed as part of the project's mission to **prevent and raise awareness about Online Sexual Exploitation and Abuse (OSEA)** among young people across Europe.

Purpose and Scope

Developed by **AB iED** with the support of the project partners, the BE AWARE app and platform aim to **empower young users** by offering accessible, interactive resources that encourage safe and informed digital behaviour.

The tools include:

- **A library of comics and game cards**, ensuring support is always within reach.
- **Educational quizzes** to assess online risks and make conscious decisions.
- **A user-friendly and intuitive design**, developed to engage a diverse youth audience across different national and European contexts.

These tools form part of the project's broader goal to provide **multidimensional learning experiences** that promote **awareness, prevention, and youth empowerment** in the digital space.

Access the Tools Here

We invite all partners, educators, youth workers, and stakeholders to register, explore the content, and contribute feedback as we finalize development.

-  **E-Platform:**

Accessible via desktop – no installation required.
-  **Mobile App (Android only):**

Please note: The mobile app is currently in Google's testing mode and is available exclusively for Android devices.

Next Steps

We encourage all users to test the platform and app ahead of our upcoming coordination meeting, where we will collect valuable feedback to refine the tools before their final release.

Together, let's make the online world a safer place for all young people.
